WILLIAM JOHN SCHIESSE

III

GRAPHIC DESIGNER & PRINT SPECIALIST

EXPERIENCE

Print Specialist

Staples

Dec 2025 – Present

Hamilton, NJ

- Provide expert consultation to customers regarding print solutions, large format printing, and custom marketing materials.
- Operate high-speed digital printers and production equipment to ensure all orders meet strict quality standards.
- Manage full production workflow, including file intake, digital proofing, final assembly, and customer pickup.
- Handle multifaceted retail tasks including UPS shipping, Amazon returns, and assisting with self-service machines.

Enrollment Center Student Worker

Mercer County Community College

Sep 2024 – Present

West Windsor, NJ

- Assist students with enrollment processes, including applications, course registration, and financial aid forms.
- Provide front-desk support by answering questions and maintaining a professional welcoming environment.

Press Operator

Greenhouse Graphics

Nov 2023 – Jun 2024

West Windsor, NJ

- Created high-quality graphics for custom apparel, business cards, and promotional items for various clients.
- Operated printer and heat press with high attention to detail throughout the ordering and delivery process.
- Established minimalistic website designs for business owners using Wix software.

Graphic Design Intern

Animal Sanctuary Society

Jan 2024 – Apr 2024

Remote

- Managed social media content for Facebook to spread awareness of animals in need of homes.
- Created visually appealing video content using Adobe After Effects to increase website engagement.

Website Designer

Brandon Washington

Dec 2022 – Jun 2023

Remote

- Developed user-friendly websites, including a site for a pre-school that improved online presence and enrollment.
- Collaborated with clients to create responsive designs that met specific branding and functional requirements.

Freelance Editor

Self-Employed

Sep 2022 – Present

Remote

- Edit music videos for various clients, managing transitions, special effects, and color grading.
- Manage multiple projects simultaneously, consistently meeting tight production deadlines.
